Crawford County with its sparsely settled parts is facing a big school problem. Many of the school houses are in too poor a condition to have another year's school taught in them. Many districts have so few pupils and so low a taxing area that consolidation seems the only solution to meet the situation.

No. 6 of South Branch could likewise form agricultural schools.

Crawford county people would receive state aid in establishing these schools; make possible twelve years of training for the rural boy and girl, and have a better quality of teaching than is now possible, as we as having the children taken to and from school. This last is a big factor in these northern climates; it works in these northern climates; it works out well. Houghton County where they have had four feet of snow this year has consolidated and formed rural agricultural schools and would

MAKE IT THREE BIG DAYS! Sunday, March 13th; Sunday, March 20th, Palm Sunday and Sunday, March 27th, Easter.

These are the great days of the Christian year. He who does not feel the draw of the church during these days is dead. WORSHIP the Christ now in the church of your choice, Lomewhere.

There is an endeavor to make the coming Sundays as big with interest and helpfulness as possible. Where? At the Michelson Memorial church. There should not be an empty pew or chair in the church. He who says he is not welcome is not on the side of truth. The best pew in the church is yours if you get there before some is yours if you get there before some one else gets it. Come next Sunday

and all these Special days.

A fine communion service with Dr Dystant as preacher made the day last Sunday. Some were missing. Who was it? The Sunday School is running well. Young men and women there is a hustling class for you. Stop with us next Sunday.

GRANGERS HOLD SPECIAL SESSION

HEAR TALKS BY DEPUTY KEIF-FER AND M. HANSON.

The roads were bad Tuesday keeping many tarmers away from the special session of the Grange which had been valled for that day. The smail number that attended were wen repaid for their enort by inspiring cans given by Mr. Kenter, a deputy grand officer of the order, and by M. Hanson of this city.

Mr. Keifer went pretty thoroughly over the ground that pertained to the good of the organization. The hrst part of his talk was on the maiter of getting the younger people to make an active part in the Grange, and advocated a Grange base ban team for the boys. He taiked on the social and economic problems of the Grange. Bits pending before the legislature pertaining to the welfare of the larmers were brought out and explained. Aiso national legislation came in for remarks and the vetoing of the taiiff bill, one of the last acts of President Wilson, was severely criticised Leansportation problems and high treight rates received their share of

Mr. Keifer's inspiring talk was followed by an animated discussion, which was entered into by most of the members present.

M. Hanson, owner of the Bank of Grayling and interested in a numbed of other enterprises, was one of the invited guests at the meeting and ortered some splendid suggestions for the good of the farmers. He said all Mr. Keifer had said but heartny concurred with most the things.

One of the important points brot up by Mr. Hanson was that the far-

up by Mr. Hanson was that the far-mers of Crawford county failed to keep records of their business and that it was only by them being able to show what it cost to operate the several departments of their busi-ness and just what their receipts and profits were that they were going to be able to give out any authentic inbe able to give out any authentic in-tormation about the agricultural con-ditions of the county. These things he had tried to have the farmers do and had furnished them with record books, which if kept properly, would show just how much the farm made each year. If a farm made 50% of its value, or any other percentage, each year, it was important to know this, and such results placed before prospective farm purchasers would and them largely in placing a value upon such farm. Mr. Hanson gave a number of other valuable sugges-tions that no doubt will be appreciat ed by those who heard him.

We are glad to note that the Grange is trying to co-operate with the business men of the county. Both elements are bound to be bigger and oetter and a lot wiser by getting to-gether occasionally and discussing the problems that confront them in everyday life. It is a decidedly for ward step on the part of the Grange in our opinion, and we hope this spir it will continue.

It is the general condition all over the country for tradesmen, profession-al men, business men and all classes to look at matters from different angles and the result is largely discord ant. How much better it would instead of suspicion, turmoil, lack co-operation, hatred, strife and other ill feelings among the people of a community, that all unite and each using a heavy maul that they heap blow upon blow on the end of an entering wedge, all united win the same purpose. Efforts properly guided and so united would overcome any barrier that might come up or ac-complish any task that may be start-

Weak leaks in a strong Chain

That's just what imitation parts are when they become a part of your Ford car. They look strong enough, but the metal isn't there, the strong durable Vanadium steel that goes into the Ford chassis and every Ford part. Ford parts are specially cast and heat-treated, each according to its use. Some require a hard, flint-like wearing surface, others need resiliency, and some need just "toughness."

Ford metallurgists have been studying these problems for sixteen years and know just how each unit should be made to endure a maximum of wear and tear. They know that best resuldts can be obtained only by the use of special formulas for different parts and that honest Ford parts wear from thirty-five to one hundred per cent longer than counterfeits.

We carry complete assortments of genuine Ford parts for both passenger cars and trucks. And our garage is equipped to give careful, prompt Ford service—from minor adjustments to complete overhauls. Drive in, it's better to be safe than so, rry. Come to the Authorized Ford

PLANTING HOME GARDENS IS BIG STEP IN THRIFT PROGRAM.

One-Tenth of an Acre of Fairly Good Ground Will Supply the Greater Part of the Vegetables Needed by the Average Family, Say Specialists.

Home vegetable gardens will be just as important in stablizing the food supply in 1921 as they have been at any time during the past few years, say garden specialists of the United States Department of Agriculture. Urgent need for increased production of food during the war caused thousands of rural and urbar residents to plant gardens, which resulted in establishing the gardening habit. This year, specialists say home gardens will play an important part in thrift and economy. Thousands of acres of uncultivated land in and about many large cities will be utilized this year to furnish employment and recreation to home gardeners who know that by raising their own supply of vegetables they can materially reduce their living costs. Enough for Average Family.

One-tenth of an acre of fairly good ground-a square about 65 feet each way-will supply the greater part of the vegetables needed by the average family, say garden specialists of the department. The cost of all seeds and fertilizers for a garden of this size should not exceed \$15 to \$18, and may not cost more than \$5 o

Experience has shown that not more than 100 hours should be required for planting and caring for a one-tenth acre garden. This time is so distributed throughout the season that the work can be easily done by most persons working in factories, stores, or offices. It means an average of about 5 or 6 hours a week for a period of 20 weeks or merely erage of about 5 or 6 hours a week for a period of 20 weeks, or merely enough time for proper outdoor re-creation and exercise necessary for good health. More time will be re-quired early in the season while the garden is being prepared and planted than during the summer, when not more than 2 or 3 hours a week will be recessary to keen the garden in be necessary to keep the garden in good condition

A little time during mornings, eve A little time during mornings, evenings, and on holidays spent in the garden is a good investment. A garden is like a farm, however, in that it produces according to the attention given it. A well-cared-for garden will produce much higher yields than one which is neglected. The average one which is neglected. The average return in money value from a one tenth acre plot of ground usually about \$85 for a season.

Plenty of fresh vegetables direct from the garden to the table is of vastly greater importance than the money value, the cutting out of midmoney value, the cutting out of middleman's profits or transportation problems. The question of saving and cost, however, may prove a very important factor before the close of another year. Already there is much unemployment of labor and the local or home production of foods in the garden is the surest way of safeguarding the family food supply. It is said that the farmers of the country could cut themselves off from the ry could cut themselves off from the try could cut themselves off from the rest of the people and live comforta-bly for an indefinite period, because they can produce practically every-thing that they need. Gardens fur-nish an important part of the living of families on farms and the same principle will apply to people who live in cities, towns and villages who have access to a small tract of land or

which to grow a garden.

There is no more healthful exercise than that of working in the soil The old doctor who advised the dyspeptic to go out on the farm and follow the plowman had the right idea So simple an operation as hoeing or raking the soil brings into play mustice of the held; that related the soil of the held; the soil of cles of the body that seldom do any work. The muscular exercise, coupled with the deep breathing of pure outdoor air, together with the effect of the sunshine, all tend to promote health.

Taking it Easy at First.

There is nothing connected with the work of cultivating a garden that has a tendency to injure the health unless overexertion is indulged in. Persons who habitually work indoors should be rather careful when they first begin working in the direct sunshine. When the work is first started the muscles are stiff and weakened from inactivity and it is necessary to go slowly until they get into play. Very slowly until they get into play. Very few cases of sun stroke or heat prostration among gardeners have been reported. A little precaution in the beginning will ward off possibility of heat injury. Garden work begins early in the springtime while the weather is pleasant, and by the time the hot period comes on the gardener will have accustomed himself to outdoor conditions so the heat will have loor conditions, so the heat will have

door conditions, so the heat will have little effect upon him.

Gardens and health go hand in hand, and many reports have been received by the Department of Agriculture of the health-giving results of garden work. Even on farms where men do the heavy labor of preparing the garden, women find light work in the garden of great benefit. work in the garden of great benefit, for the duties of the farm woman of-ten keep her too closely confined in the house and the garden affords an opportunity to get out into the open air and sunshine. More than half of work of growing farm gardens is e by the women, many of whom ald have no outdoor recreation if it were not for this work in the gar

WORLD HAS CHANGED LITTLE

Like Pance de Leon, People Today Are Apt to Believe What They Want to Believe.

Ponce de Leon didn't originate the idea of a spring of eternal youth. That was not in his mind when he samed for the new world. He sailed with Columbus upon the latter's second trip and was appointed governor of Porte Rico, where he believed gold existed in abundance. While exploring the island he met an old savage, who told him that not only was there gold to be found in another country to the northward, but also there existed in the land a spring whose waters brought eternal youth. So the rest-less adventurer set out upon his search and discovered Florida.

All of which is stated not because the information is new, but to call attention to the fact that Ponce de Leon believed the eternal youth proposition because he wanted to, remarks a writer in the Columbus Dispatch. All of us, to this good day, do the same thing. We believe that which we desire to believe, whether it is good or bad. We believe the scandals we hear about others when we want to believe them—and we reject them if we do not want to believe such things of the persons connected with the scandal.

Further, we usually hear that which we are desirous of hearing. The willy old savage wanted to get rid of Ponce de Leon. He knew enough of human nature and of Spanish nature to be All of which is stated not because thing. We believe that which we de about others when we want to be-lieve them—and we reject them if we

But the old savage, to make the gold story all the stronger and to lure the invader from the island all the more surely, added the eternal youth proposition to the story which the explorer was expecting to hear and thereby was he successful in ridcharacter.

Hawk Makes Fata! Mistake. The other day the family of B. P. Malsbury of Imlaystown, N. J., heard a crash of breaking glass and discova bay window broken, and floo ping helplessly about the floor, a large

freshly stuffed ringneck pheasant, Which Russel Malsbury had shot during the gunning season and had just brought home from the taxidermist as a gift for his mother. The stuffed bird had been left in the hay window while the family admired it, and the hawk, probably sighting it from a nearby tree, had made a 100-yard swoop for its intended prey, only to crash through the unseen glass barrier and njure itself fatally.

Memorial Forests? Memorial trees have been planted by the hundreds in honor of the boys who fought in the great war, and hundreds will be planted vet in their honor, says the American Forestry Magazine. But why stop with the planting of one tree in honor of each? Why not make it a half-acre, or even more, for each, and bunch the planting to make a forest? We can call it whatever we may, a township, a mu nicipal, a county or a community for-est, letting it be distinctly understood that it is to serve as a memorial forever to those for whom planted.

By the time he had reached this high place Mr. Tom Cat had reached the top of the barn, and there he stood looking up at poor Mr. Mouse, who now must stay where he was or come down for Tom to catch.
"You certainly are a good climber,

said Tom, swinging his tail back and forth. "Let me see if you can run down as fast as you went up."

Poor Mr. Mouse knew he was in a

very tight place, but he decided he vould better stay where he was and see if Mr. Tom would get tired of wait-

ing and go away.

Pretty soon the wind began to swing the weathercoc!: and Mr. Mouse clung on for dear life, while Mr. Tom Cat, with his head tilted backward, looked steadily at him, thinking every minute Mr. Mouse would be in his paws. But the wind was changeable that day, and around swung the weathercock so fast that Tom Cat grew dizzy watching it, and before he knew what had happened he lost his balance and tumbled off the barn to the ground.

Of course he landed on his feet. Cats always do. And when he had gathered his senses he looked up at the weathercock, but Mr. Mouse had

Mr. Mouse was safe on the top of the barn and was just running into a hole in the roof, but he stopped to call to Mr. Tom Cat: "It is an ill wind, you know, that blows no one any good, and I happened this time to get the good."

An Adventure Romance

Synopsis. - Robert Hervey Ran-dolph, young New York man-about-town, leaves the home of his sweet-heart. Madge Van Teiller, cha-grined because of her refusal of his heart. Madge Van Teiller, chargined because of her refusai of his proposal of marriage. His income, \$10,000 a year, which he must surrender if a certain Miss Imogen Pamela Thoriton (whom he has seen only as a small girl ten years before is found, is not considered by the girl of this heart adequate to modern needs. In a "don't care" mood Randolph enters a taxt, unseen by the driver, and is driven to the stage door of a thester. A man he knows, Duke Beamer, induces a girl to enter the cab. Heamer, attempting to follow, is pushed back by Randolph and the cab moves on. His new acquaintance tells Randolph she is a chorabs girl, and has lost her position. She is in distress, even hungry, and he takes her to his apariment. There, after lunch, a chance remark convinces him the girl is the missing Pamela Thornton. He does not tell her of her good fortune, out secures her promise to stay in the flat until the morning and leaves her.

DIFFICULT TO HANDLE FORKS

When First Introduced, Diners Could See Little of Benefit in the Innovation.

It is hard to believe the sensation produced when forks first cause into use. It was in 1574, at a danner given by Henry III of France. Here is an account by a royal lady guest. "The guests never touched the ment with their fingers, but with forks, which they carried to their mouths, bending their necks and bodies over their

"There were several salads. These they are with forks, for it is not considered proper to touch the food with the fingers. However difficult it may be to manage it, it is thought better to put the little forked instrument in the mouth than the fingers.

"The artichokes, asparagus, peas and beans were brought. It was a pleasure to watch them try to eat these with their forks, for some, who were less adroit than the others, dropped as many on their plates and on the way to the mouth as they were able to get to their mouths. "Afterward a great silver basin and

a pitcher of water were brought and the guests washed their hands, though it seems as if there would not be much cent of meat and grease on them, for they had touched their food only those forked instruments."-Ladies'

RUB OUT SORENESS. SPRAINS, BACKACHE WITH OLD ST. JACOBS OIL

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now, listen! That's lumbago, sciatica, or maybe from a strain, and you'll get blessed relief the moment you rub your back with soothing, penetrating "St. Jacobs Oll!" Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin.

Limber up! Don't suffer! Get a small trial bottle from any drug store, and after using it just once you'll forget that you ever had backache, lumsciatica, because your back will never burt or cause any more misery. It never disappoints and has been recommended for 60 years. Stop drugging kidneys! They don't cause backbecause they have no nerves, therefore can not cause pain.-Adv.

GRAYLING, THURSDAY, MAR. 107

CAPTAIN COMES TO GRAYLING TO INVESTIGATE CORPORAL.

Captain Chas. E. Wakeman of the State police department, of Traverse City, is in the city today. While here he was investigating rumors that local police corporal, Marsland was butting in on matters that were petty and did not concern him. There has been some criticism because he was instrumental in stopping the sale of cigarettes to school boys. He was called into the matter by Supt. Smith and got busy and in no time the sale of cigarettes to young school boys was shut off. He did what had not been accomplished before, and the law in regard to selling tobacco to school pupils is generally well known to everybody. One young known to everybody. One young lad who suddenly tound out that he could not get his fags went to Prof Smith and begged that he be allow. ed to have a cigarette. It was then 11:00 o'clock in the morning and the young fellow said that he had had but one that forenoon and he was nearly famished. It strikes us that cigarettes should have been withheld long ago and then this young lad would not have been in this pitiful condition. It seems that any parent should thank the officers for enforc-ing a law that will aid in the guard-ing of the health of their young boys

where the criticism of Cor-Marsland arises we do not We do understand that there is some unfriendly feeling between some of the local officials and the State police. The reason for this we do not know, but as far as we have do not know, but as far as we have seen we can offer no criticism of any of his actions. No doubt the State police have made some mistakes, but they also have done a lot of good. The capture and arrest of Boss and Blanch, for breaking and entering the Manistee depot is one of the biggest hauls that has been made in Grayling in wars. Those two men seem to be in years. These two men seem to b the worst kind of yeggmen and dan-gerous characters. It comes to us on excellent authority that the State police alone are to be credited with

There have been a number of ar-rests made in this county for viola-tions of the prohibition laws. Neartions of the prohibition laws. Nearly all if not all of the major cases have been made by the State police. If it is a question of trying to get these men out of Grayling we are not in sympathy with the idea. They are needed here and the people of Grayling should do everything to encourage their retention. It costs something to maintain the State police but statistics show that the money they bring in the way of fines is much greater than the expense to the much greater than the expense to the

tax payer to support the constabulary. If Captain Wakeman finds that his corporal has been using poor judgment or has conducted himself in any way unbecoming to the depart-ment, there is no doubt but that he will be removed. Certainly he will learn all the facts before he makes a move, and see that the pupple of Crawford county are going to get a fair deal, and also that Corporal Marsland is going to get a square deal too.

4 PARTIES WILL DISPUTE VOTE.

No April Candidates Named by Soialist or Socialist-Labor Groups.

Candidates of four parties will have places on the April ballot, according to announcement by Secretary of State DeLand. No nominations have yet been filed by the Socialist and Soyet been men by the Socialist and So-cialist-Labor parties, though the names of these parties will appear on the ballots, the former, because of the vote polled in Nov., being given third position and the Farmer-Labor party fourth, both leading the Prohibitionist and Socialist-Labor parties.

SOME INCOME TAX FACTS YOU SHOULD KNOW.

The Bureau of Internal Revenu has innumerable sources for checking up persons who fail or "wilfully refuse" to file an income tax return and pay the amount of tax due

One of these is "the information at source" provision of the revenue act which requires that reports must be made by all persons, trustees, guardians, fiduciaries, and by partnerships, personal service corporations and organizations, of payments to others during the year 1920 of \$1,000 or more. A separate return of infor-mation for each employee whose sal-ary is \$1,000 or more is required of employers. The return must show the name and address of each recip-

ient and the amount paid. These information returns which are filed with the Commissioner of Internal Revenue at Washington, D. C., are carefully checked with the returns of individual income. If John Doe, who has received a salary of \$1,000 or more during the year 1920, has failed to report this payment in his personal return, he will hear from the collector of internal reve-

nue.
Thousands of delinquents have been discovered and penalties and taxes aggregating hundreds of thousands of dollars have been collected as the result of this audit.

ANTI-SALOON LEAGUE OFFICIAL STATES FACTS

The wets in the state are attempting in every possible manner to rouse opposition to the "State Police," said J. G. Haller, assistant superintendent of the Anti-saloon League of Michigan in an address delivered at Grand Rapids a few even ings ago. Mr. Haller, who is in a position to be quite well informed. charged that practically all of the complaints made against the constabulary indicated a wide-spread plot to discredit the troopers who are making a concerted effort to enforce the prohibition laws. Mr. Hailer reviewed the work of the State Police during the past six months and praised the force highly for their effective

SEVERAL STATES WILL **INCREASE POLICE PAY**

Requests have been made of the Pennsylvania, New York and West Virginia legislatures for an increase in the scale of the pay of State Police in those states. The new scales approximate that asked for the Michigan State Police. It has been the general experience that, in order to the desirable class of men needed a more adequate salary is required.

DRUNKEN DRIVERS ARRESTED

State Police troopers are still devoting some of their time to intoxicated autoists, as severar persons have found out recently. Troopers Ester line and Carter have been unusually active in picking up drivers of metor cars who were under the influence of

Last Night's Dreams

-What They Mean DID YOU DREAM OF FRIENDS!

TO SEE friends in a dream is a good sign on the whole. If you simply dream of seeing an absent friend it means, according to the mys-tic authorities on such subjects, that there is pleasure ahead for you; probably you will receive good news soon. For people in love it foretells marriage, and to dream of absent friends is a sign of their speedy return, or that you will take a trip to the absent see them again. As to the proper manner of comporting yourself when you meet friends in a dream the authorities differ. But the consensus of opinion seems to be that you should not laugh and disport yourself with them, as hilarious behavior with friends in Dreamland is apt to take the edge off the good fortune which seeing them would otherwise bring you, may even subject you to some slight, temporary troubles. Shocking as it may appear though, it is con-sidered by the seers to be lucky to see yourself taking a drink with them. That is, it has been considered heretofore, but probably future oracles will cut this sign out. At any rate be careful and don't take but "just one," for otherwise you might become spor-

"WHIST."

 M^{ANY} persons, in seeking the derivation of the name of the popular card game, have to the conclusion that it originated in any one of the poporiginated in any one of the popular ejaculations calling for si-lence or attention—the Latin "s," the German "hist," or the Scotch "whist." This explanation sounds logical, but there are others who as stoutly main-tain that the name was derived from the fact that trumps "sweep" or "whisk" the board, a contention which is supported by a study of at least three of the languages which enter into the ground-work of English.

Thus, in German, we find "wisch," meaning a "mop." In Danish, the equivalent of the verb "to wipe" is "viske" and in Scotch it is "wiska"—all of which bear a striking resem-blance to the English "whist." Another form of the same word may be found in the term "whisk-broom," meaning a broom which whisks or flecks or wipes particles of dust from clothing

and the like.
"Whist," therefore, instead of signifying silence or attention. takes its name from the use of the trump-suit and naturally dates back to the days when the "no trumps" declaration was un-

Greek Civilization. Excavation at Knossos, Phaestos and other sites in Crete has not mere-

ly established the existence of a people whose form of civilization was the earliest in Europe, says Discovery, but has shown much about their daily life, games, amusements; their art, rewriting-though hardly ye ligion, writing—though hardly yet their language; their physical char-ncteristics, dress and the houses they lived in. A huge palace, as big as Buckingham palace, has been unearthed at Knossos. It has a drainage sys-tem that an eminent Italian archaeologist has described as "absolutely English," and that certainly anticipates the hydraulic engineering of the nine teenth century. The men of science engaged in the work estimate the age of their discoveries at four thousand

Mrs. Loretta McElroy Succumbs Af ter Brief Illness. The death of Mrs. Loretta McElroy

at her home in this city Monday norning, marks the passing of one of Grayling's oldest pioneers. Mrs. Mc Elroy, since the death of her husband the late Robert McElroy on Decem ber 23rd, 1910, has lived alone in her little abode on Cedar street. Last Friday she complained of not feeling well, life seemed to ebb away, death taking place at 3:30 Monday morning Neighbors and members of the Ladies National league cared for her during her illness and the latter ar ranged and, conducted the funeral which took place Wednesday morning at the home. She was a charter member of the National league and was held in high estimation by her friends. The ritualistic services of the League were used at the funeral and Rev. C. E. Doty offered prayer "Abide with me" was nicely rendered by Mrs. J. A. Holliday. Members of the local post American Legion acted as pallbearers, and honorary pallas pallbearers, and honorary pallibearers were members of Camp Wagner No. 33, N. L. V. S. Interment took place in Elmwood cemetery, and the last of one of the oldest families in Crawford county was laid to rest. Loretta Martin was born in New York state in 1847, and in 1879 was united in marriage to Robert McElroy, shortly after his discharge from the Civil war, in which Mr. McElroy served as a private in Co. B, 108th New York Volunteers from July 29, 1862 till October 1865. About 38 years ago Mr. and Mrs. McElroy came to Grayling, from Vassar, Mich. In her early days Mrs. McElroy united with the Presbyterian church and was a staunch member. Mr. McElroy was a member of the G. A. R. and had held the office of vice commander. He also took a keen interest in public affairs serving as Justice of the Peace for 18 years and will be well remembered by the transpellers of the rest was between the transpect of the present the service of the present of the present of the present of the property of the present of the pres bearers were members of Camp Wag-

points to West Branch's lone one. It was worth the price of admission alone to watch the antics of some of the local stars, trying to keep the ball from their opponents' hands. Fans will have the pleasure of seeing another regular game Saturday night when the fast Presbyterian team of Bay City comes to Grayling. If you witnessed the Hanson Ward game, or the Saginaw "Y" game, you can plan on this one being in close touch with those, only probably a touch with those, only probably s trifle faster. GAVE COUGH CONCERT NIGHTS; COULDN'T SLEEP

"My wife and I would start coughing and keep it up for a couple hours every night. No wonder we couldn't sleep. I'd had bronchial trouble for years and about five years ago went West for my health. I seemed to get much better out there, but last winter here at home, in Lansing, I contracted a bad cold and felt my old trouble coming back. My wife and I both had bad coughs and we kept up a regular concert of coughing every night, I went down to my druggist and he told me about this new medicine, Hypo-Cod, and that was the end of It helped us both right troubles. away. Our coughs disappeared and I believe anybody with bronchial trouble can get relief by using it. I know I had a chronic case and it did the work for me. Besides knocking out our coughs, it built us both up fine. We both began feeling better and our appetites increased immensely. You just can't imagine what a wonder change it makes in you." declares Mr.

If the lungs are in a weakened condition and the system is rundown, it requires a powerful modern medicine to knock out the trouble. That is why Earle's Hypo-Cod accomplishes results when weaker preparations fail and why it does its work days and weeks sooner. Besides, it is nicer to take than the old-fashioned tonic. DARLING BABY BRIGHTENS HOME

Children's Laughter a Pleasing Sound

Altoons, Pa.—"I am writing to tell you what Lydia E.
Pinkham's Vegetable Compound has done for me. We had six children die almost at had six children die almost at birth. From one hour to nineteen days is all they have lived. Before my next one was born I took a dozen botties of your Vegetable Compound, and I can say that it is the greatest medicine on earth, for this baby is now four months old, and a healthier baby you would not want. I am sending you a picture of her. Everybody says 'That is a very healthy looking baby.' You have my consent to show these few lines to anybody.'—Mrs. C. W. Benz, 131 3rd Avenue, Altoona, Pa.

Mrs. Janssen's experience of interest to childless wives.

Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are fond of children, and for a considerable time after we were married I feared I would not have any. I began taking Lydia E. Pinkham's Vegetable Compound, and it strengthened me so I now have a nice, strong, healthy baby girl. I suffered very little at childbirth, and I give all the credit to your medicine, and shall always recommend it highly."—Mrs. H. H. JANSSEN, Millston, Wis.

Mrs. Held of Marinette, Wis., adds her testimonial for Lydia E. Pinkham's Vegetable Compound. She says:

Marinette, Wis.—"I was in a nervous condition and very irregular. My doctor advised an operation. My husband brought me one of your booklets and asked me to try Lydia E. Pinkham's Vegetable Compound. It overcame my weakness so that I now have a healthy baby girl after having been married nine years. I am glad to recommend your medicine, and you may use my letter as a testimonial."—Mrs. H. B. HELD, 330 Jefferson St., Marinette, Wis.

There are many, many such homes that were once childless, and are now blessed with healthy, happy children because Lydia E. Pinkham's Vegetable Compound has restored the mother to a strong and healthy condition, as it acts as a natural restorative for aliments as indicated by backache, irregulative for the strong and healthy condition. larities, displacements, weakness and nervousness.

Women averywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative. It can be taken with perfect safety and often prevents serious troubles.

Therefore if you know of any woman who is suffering and has been unable to secure relief and is regretfully looking forward to a childless old age, ask her to try Lydia E. Pinkham's Vegetable Compound, as it has brought health and happiness into so many homes once darkened by illness and despair. Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts.

Lemire's motion to refer the bill to the committee on Public Health was defeated after considerable fiery discussion. Sen. Davis. father of the bill, called the attention of the senators to the increasing number of defectives as revealed by the mounting enrollment at the various state institutions and by the findings of the examining boards in the recent military draft. The appeal of Sen. McArthur of Eaton, in which he called attention to the increase of social diseases, was dramatic. An amendment proposed by Sen. Wood amenament proposed by Sen. Wood of Wayne to limit the provisions of the measure to males was defeated by a vote of 11 to 12. After favorable consideration by the Committee of the Whole, the bill was made a special order for third reading on March 9th.

The biggest fight in the Senate or Wednesday was aroused when Sen Condon's constitutional amendment to increase the salaries of Supreme Court Justices from \$7,000 to \$10,000 a year came up for third reading. Senators Baker and McArthur lead

The bill providing for the creation of a State Department of Agriculture, as suggested and sponsored by the state farm bureau, has made considerable progress during the past week. It was reported favorably by the State Affairs Committee of the House on Tuesday and referred to House on Tuesday and referred to the committee on Ways and Means. This latter committee reported the measure favorably on Thursday and on their recommendation, the bill was quantities. Ninety-eight new bills referred to the Committee on Agriculture.

Mosier of Allegan, was reported favorably after a rather warm seasion in the committee. This is another measure which is being urged by the Michigan State Farm Bureau and other farmers' organizations.

A new income tax scheme that was received with considerable favor was presented by Sen. Penney of Saginaw. He proposes to eliminate the duplication of effort which would reduplication or effort which would result from the adoption of both a federal and a state income tax system by requiring the federal government to return to each state 50% of the amount collected by the U. senators Baker and Marthur lead the fight against this measure by declaring that Michigan pays her justices as liberally as most of the other states and that this is no time to start raising the salaries of any public officials. Senators Condon, Brower, Hicks and Vandenboum spoke in favor of the bill and declared that Michigan has not kept pace with other states in this respect. The measure was adopted by a vote of 19 to 11.

Another bill which precipitated a lively scrap was Sen. McRae's proposal to require the licensing of "legislative counsel and agents." Sen. Henry's motion to strike out all after the nearting clause finally prevailed by a vote of 13 to 10.

The rural child today loses family care and it does not help them in going away to the village high school and again, it is a big cost. That devotion he should be acquiring for home is needed in making that for his country. The rural child is timid in going to the village school. He likes his own school best. The old rural school of one room has these disadvantages: First he must travel perhaps 3 miles in all kinds of weather through the snow arriving stands in contrast with that of the county. Hence in Wayne, Genesee Bay, Kent, and similar counties, the idea of county reform has started with vim. But in none of those cities so far as we know, is there any desire to deal unfairly with the rural sections of the county. Rather they are to receive every consideration, and be fully consulted as to the whole plan It is to be hoped that all concerned, county officials, farmers, and tax payers, will study the problem and say what they think, not before they get the facts and learn our viewpoint, but

with Doan's Kidney Pills. Ask your neighbor?
Peter Wm. Christenson, Chestnut St., Grayling, says: "I have used Doan's Kidney Pills on different occasions in the past and they have always proven of great benefit to me. When my back has been weak and lame and the kidney secretions too frequent in action, I have used a box or so of Doan's Kidney Pills and they have always cured the complaint."
The above statement was given October 11, 1916 and on April 28, 1920, Mr. Christenson said: "Doan's Kidney Pills are one good kidney medicine. They cured me up in good shape and I am glad to say a few words for them. Although I haven't needed to use them for a long time I am just as glad to recommend them as I did before in 1916." "No county in Michigan that pre fers its present system need make any change at all. jority of the people vote at the polls for a change can any move be made
"Since the people of Michigan are paying high taxes, and want to save money in government, it would appear that county reform, in the in terests of economy and ought to make a broad appeal through out the state, so that the legislature would soon hear from the people and

THE PNEUMONIA MONTH.

March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and peo ple grow careless. When every cold, no matter how slight, is given prompt and intelligent attention there is much less danger of pneumonia. It should be borne in mind

that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ ladened mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly.

Seven times in the past three months we have told you what the Grange has done and will continue to do for you. Seven times we have shown that the way of the Grange is a way that will help you. We might go on advertising indefinitely the manifold benefits it offers you. But it seems unnecessary. So we make this the last of the series telling of two tested ways by which you may keep in touch with progress made through farmers' organizations by pulling together with the Grange and by subscribing for

THE COUNTRY GENTI

Farm Weekly will give you service out of all proportion to its low cost. Each week it demonstrates the tested methods of successful farmers. It comments in unmistakable terms on what happens in the dark between producer and consumer; and points clearly to the benefits derived from turning on the light. It stands four square behind every farmers' organization that operates for agricultural welfare. Its Washington representative keeps you in touch with new or proposed laws and their effect on your

achievement, of cooperation among farmers and of all vital agricultural activities comes to you every Thursday through its pages. Its editorials, its humor, its "Brighten the Corner" pages; its "Handy Farm Mechanics" Department, its cheery covers and trim appearance make THE COUN-TRY GENTLEMAN worth many times the one lone dollar it costs you for 52 issues. If you've passed by the first seven coupons we've printed, below is one more - and the last. Send it to our secretary, with \$1.00 today.
